Megacities are cities home to **over 10 million people**. As global urbanisation continues, megacities will become an increasingly essential and normalised way of living.

Hosted with Istanbul Metropolitan Municipality, the Megacities Summit will be the **first of its kind**. Mayors and other representatives will gather to seek actionable answers for the specific challenges of managing cities of this scale.

The theme for the Summit will be **Sustainable Finance for Affordable Megacity Services** – responding to the need to find innovative ways to fund quality services for urban residents.
