Crossing Boundaries in commemoration of World Day Metropolitan

07 Oct. 2022
07 Oct. 2022

Documents:

The theme of World Metropolitan Day 2022 is "Crossing Boundaries." At first, it appeals to the essence of metropolitan governance, in collaborating across administrative boundaries to better serve the people. It also means removing social and physical and physical obstacles, including national borders, that divide the urban and metropolitan fabric.

All of the above is relevant when we talk about declining quality of life due to increasing poverty and inequalities, inflation and lack of access to affordable housing and adequate support in our care systems. At a time when our societies seem to be growing further apart and our daily lives are being disrupted by the

consequences of the climate, water, energy and food crises.

This webinar seeks to promote a space for the exchange of experiences and best practices in fauna, flora and/or biodiversity management and to understand how different cities, metropolises and metropolitan areas face current challenges.

When? 7 October at 9:00 am in Colombia

Where? Online: <https://www.metropol.gov.co/Paginas/Eventos/webinar-atravesando-los-limites.aspx>

Organised by Valle de Aburrá

Webinar

"Atravesando los límites"

En conmemoración del Día Mundial Metropolitano

Las áreas metropolitanas de México, El Salvador, Brasil y Colombia se unen para compartir sus experiencias exitosas y acciones por la conservación de la biodiversidad y los ecosistemas.

Fecha: 7 de octubre

Hora: 9:00 a.m. a 11:00 a.m.
