## 2022 Goyang City Forum | 2022 □□□□□ □

24 Oct. 2022

26 Oct. 2022

<https://goyangcityforum.org/en/goyang-special-city/>

The Goyang City Forum aimed to increase the global awareness of various problems caused by urbanization and to share the vision for sustainable urban development with domestic and foreign experts and citizens. Through the first forum in 2019, the vision of Goyang City was newly established to create a warm city where people and nature co-exists, and policies have been promoted reflecting the findings of the forum.

At the 2022 Goyang City Forum, which is celebrating its 3rd anniversary this year, policies that have been pursued to date will be reviewed with experts in improvement of urban areas, environment, and lifelong learning under the theme of "A Sustainable City Growing Together with Citizens". In addition, we aim to establish a successful model of sustainable city through exchange and discussions on best policies and practices in Korea and abroad.
