14th Metropolis World Congress & Brussels Urban Summit 2023

12 Jun. 2023
15 Jun. 2023

Large cities and metropolitan areas face a range of shared challenges, such as inequality, diversity, public health issues, and the climate and energy crises.

Metropolises and their inhabitants are still the drivers of innovation and growth and through sustainable development are key to building societies that are more inclusive, more accessible and more efficient.

In this context, for the first time in six years and in the framework of the Brussels Urban Summit 2023, the entire Metropolis community will get together in Brussels to celebrate the 14th Metropolis World Congress and address the major challenges facing the world's big cities and metropolises.
