

Land-based Finance for Responsible Municipal Governance

27 Nov. 2018

In order to enhance understanding of such challenges, and to assist governments and stakeholders to find ways of meeting those challenges by unlocking potential land-based finance resources, UN-Habitat and the Global Land Tool Network (GLTN) have developed a dedicated, two-volume training package called *Leveraging Land: Land-based Finance for Local Governments*. The package, which consists of a Reader and a Trainers' Guide, aims at developing the capacity of local and national leaders to utilize land-based financing as a critical component of municipal finance.
