

Revitalization strategies through urban projects - workshop in Montréal

24 Sep. 2018

The objective of this pilot project is to the exchange experiences on innovations of urban revitalization strategies between metropolises sharing the same territorial characteristics, governance and quality of life issues. The analysis will be based on the forms and processes for the city's transformation, by looking at concrete examples of major Urban Projects, through the analysis of 5 themes:

The urban form, the urban design as a continuous process of thoughts and shaping of programs and urban spaces, the participation processes, the financing and regulation of the project, the governance and its influence on decision-making, the formalization and the ownership.
