Live Learning Experience sessions - The Peace Agenda during and after Covid-19

11 Jun. 2020

11 Jun. 2020

The Live Learning Experience, organized by **Metropolis, UCLG and UN Habitat**, has brought together more than 3,000 participants in sessions that began at the end of March. Participants from local and regional governments, the UN system and partners from civil society have shared their experience, initiatives, and actions to support their communities and address the pandemic by providing essential basic services

The session is organised in collaboration with the **World Forum on Cities and Territories of Peace** that will celebrate its third edition in 2021, and will address the agenda of local governments for peace and set the course for the Forum in Mexico City.
