Metropolitan Areas International Strategies - AMB

Documents:

The Metropolitan Area of Barcelona (AMB), the Barcelona Institute of International Studies (IBEI) and the Alliance for cooperation between Latin American cities (AL-LAS) organize this conference on Metropolitan Areas International Strategies, which will take place on July 8 at the headquarters of IBEI in Barcelona.

This international conference will exchange experiences and strengthen links between large metropolitan areas such as Barcelona, New York, Montreal, Johannesburg, Lima, Mexico City, Manchester and Medellín. The conference will present the international actions of metropolitan governments as a public policy, as well as the ways of cooperation with economic operators and the territory, allowing participants to discuss strategies for the metropolises to find their place in the global agenda. The conclusions of the meeting will also serve as a preparatory work ahead of the Habitat III Summit, to be held in Quito in October 2016.

To register for the conference, please **[click here](#)**.
