

Urban Innovation Workshop

14 Oct. 2016

www.bogota2016.uclg.org

This panel will introduce attendees to the concept of urban innovation. It will discuss how urban innovation projects evolve from inception to completion and the key factors of success. The panelists include key actors representing different roles, expertise and contexts in the innovation process. In addition to sharing lessons learned from different perspectives, the workshop will provide ample opportunity for participants to ask questions and share their own experiences with one another. The workshop will also discuss how to make the innovation knowledge platform more useful as a peer-to-peer learning tool, especially in the context of the New Urban Agenda and the urban component of the Sustainable Development Goals.
