New trends, new learnings for urban and interurban intermodal transport

16 Sep. 2021

16 Sep. 2021

New security measures against COVID 19 and the development of teleworking are the two challenges that cities must face in the future of urban and interurban public transport.

To analyse these major challenges, we will attend a round table discussion between several experts from the sector, Gerardo Lertxundi (CEO of TMB), Mohamed Mezgani (Secretary General of UITP) and Octavi de la Varga (Secretary General of Metropolis), who will discuss the challenges, trends and success stories that we can apply and adapt for the city of Barcelona and its metropolitan area.

Time: 6:30 P.M. (CEST) - Barcelona, Spain

Language: English (no translation)

The event will be broadcast live on SEAT Spain's official YouTube channel:
