

## Initiative « Sustainable airports areas »

### 1<sup>st</sup> workshop: October 26-27<sup>th</sup>, 2015, in Paris

In October in Paris, will take place the 1st workshop of the Metropolis Initiative dealing with Sustainable airport areas. It will offer participants a great opportunity to present their airport area historical development, to relate challenges in terms of sustainable development, to share experience with other international airport areas stakeholders, and to develop a transversal approach of their territory.

In the course of the Initiative, the concept of Sustainable airport areas will be discussed and fed by a critical analysis of airport areas development models. Varied issues such as economic development, social development and environmental protection will be examined. The 1<sup>st</sup> workshop will be dedicated to participants' introduction and to the presentation of each participant's airport area historical development on the 1st day, and to identify criteria of sustainable development in airport areas in order to enrich the concept, on the 2<sup>nd</sup> day.
